# Comprometidos con un futuro sostenible

Exolum

- **Exolum en cifras:**

- 2.200 empleados

- 68 instalaciones de almacenamiento

- 47 instalaciones aeroportuarias, algunas de ellas con hidrantes

- + de 6,000 km de oleoductos

- 11 millones de m<sup>3</sup> de capacidad de almacenamiento

- Presencia en 11 países

- Cerca de 100 años de experiencia

- Otros servicios:

- Clean Energies: desarrolla nuevas áreas de negocio en torno a la descarbonización, circularidad e innovación (transición energética)

- **Seguridad y la sostenibilidad integrados en la estrategia del negocio:**

- El uso de oleoductos evita la emisión de más de 370.000Tn de CO<sub>2</sub> al año

- Plan de sostenibilidad (2022-2026): **Objetivo:** posicionar a Exolum como una empresa impulsora de la transición energética sostenible

- Diversificación de nuevos negocios vinculados con la descarbonización

- Promoción de la cultura global para reforzar el propósito de la compañía y el sentimiento de orgullo de pertenencia: las personas en el centro de la organización

- Creación de valor compartido con el entorno social

- Constante búsqueda de la excelencia en seguridad y en la protección del medioambiente

# Comprometidos con un futuro sostenible

Exolum

## Personas en el centro de la organización

- Igualdad, diversidad e inclusión
- Retención del talento
- Capacidades y conocimientos digitales de los empleados

## Seguridad

- Programas Globales de Cultura de Seguridad
- ¿Cómo lo estamos haciendo?

## Medioambiente

- Plan de descarbonización
- Plantas fotovoltaicas
- Contratos de compra de energía renovable

## Diversificación e impulso a la transición energética

- Biocombustibles avanzados procedentes de residuos reciclados
- Combustibles sintéticos
- Hidrogeno y sus derivados
- Estrategia: emplear la infraestructura existente, construir cuando sea necesario y desarrollar otros servicios

### FVCC Project

The FVCC are a fundamental tool for raising awareness and finding gaps between what is pursued with the SIF project and the reality of the work carried out in the company. The FVCC checklist is a tool for leaders to ensure their people are 100% protected from a SIF Exposure. The FVCC is not a tool for the HSE specialist, not a risk assessment, not an audit, not a job brief, etc. The FVCC is a very powerful tool for generating conversations about safety and increasing knowledge about why safety measures are in place.

LIDERAZGO EN SEGURIDAD (FVCC)

ANÁLISIS CON FOCO en el RIESGO POTENCIAL (SIF)

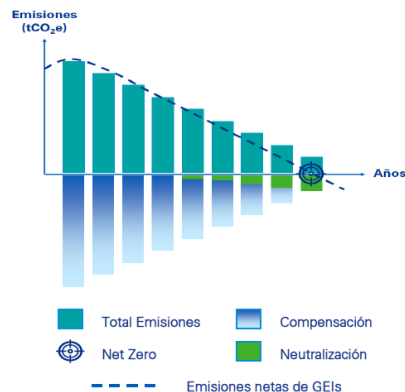

WE EXPECT TO SEE THE FOLLOWING BEHAVIOURS IN:

- Leadership and Senior Managers**
  - Lead by example in safety
  - Ensure safety is a core value
  - Allocate resources for safety
  - Review safety performance regularly
  - Investigate incidents and near misses
  - Encourage reporting of safety concerns
  - Provide training and resources
  - Communicate safety goals and expectations
  - Recognize and reward safe behaviors
  - Ensure safety is a key performance indicator
  - Engage with the workforce on safety issues
  - Lead safety discussions in meetings
  - Ensure safety is a priority in all decisions
  - Ensure safety is a key part of the business strategy
  - Ensure safety is a key part of the company culture
  - Ensure safety is a key part of the company's reputation
  - Ensure safety is a key part of the company's success
- Managers and Supervisors**
  - Ensure safety is a core value
  - Allocate resources for safety
  - Review safety performance regularly
  - Investigate incidents and near misses
  - Encourage reporting of safety concerns
  - Provide training and resources
  - Communicate safety goals and expectations
